## 1 person has recommended Natalia

"Natalia is bright, outgoing, capable, and has shown initiative in pursuing a Senate position in the Student Government, as well as leadership roles in several campus organizations and activities. Though she was only in her Freshman year when she accomplished these, she has well demonstrated aptitude for leadership, interpersonal ability, and achievement in every area she has pursued. She has long-term vision and career ambition and keeps the end game in mind. I have confidence she will graduate in more than good standing and move on to a promising professional career track in her chosen field. I would recommend her as being suited for work in a broad range of fields, including internship programs, work studies, student associations, sales, public relations, and research programs."
